

## **Fred Kelly**

### **3M Company**

Fred Kelly is a Senior Environmental Specialist with 3M Company in Brownwood, Texas. He obtained a masters degree in Environmental Engineering from the University of Texas at Arlington in 1991. His twenty-nine years of experience in the environmental engineering field include consulting and industrial manufacturing. Since 1990, he has been employed by 3M Company in Brownwood, TX. While at 3M Brownwood, he has been involved with groundwater monitoring and remediation projects, pollution prevention project work, development of air, waste, and governmental reporting systems, air permitting, waste management, design and installation of pollution control equipment, energy management and reduction programs, development of environmental management systems, and served as a Lean Six Sigma green belt coach. He has worked on a variety of state and national environmental professional committees, as well as on numerous 3M corporate environmental teams and committees. He has been active in safety and radiation safety issues and is serving on a number of plant focused factory safety action teams. He has obtained the Qualified Environmental Professional certification. He is the plant ISO 14001 EMS Coordinator and EMS Auditing Coordinator. He has been very active in many civic volunteer activities and previously co-chaired the TCEQ's Pollution Prevention Advisory Committee. He is also a member of the plant Emergency Squad and has had perfect attendance for his entire career at 3M Company.
